

Blood Glucose Testing: Evaluation

My child and I have read the information above and watched the videos on taking a blood glucose measurement. I feel confident in supporting my child to:

	YES	NO
Undertake a blood glucose test using a blood glucose testing meter		
Document their blood glucose levels into the diabetes log book provided by the diabetes team		
Describe the targets for blood glucose levels for my child		
Describe why your child may need additional overnight blood glucose tests		
Remove the lancet from the finger-pricking device and dispose of it in an approved sharps container
