

Insulin injections: Evaluation

After reading this teaching module and watching the videos I feel confident in:

	YES	NO	Not applicable
Drawing up a mixture of insulins in an insulin syringe			
Giving an insulin injection using an insulin syringe to my child			
My child (over 10 years old) drawing up their own insulin in a syringe under my supervision			
My child (over 10 years old) giving their own insulin injection under my supervision			
Dialing up an insulin dose using an insulin pen			
My child (over 10 years old) dialing up and giving their own insulin using an insulin pen under my supervision			
Changing an insulin cartridge in an insulin pen			
My child (over 10 years old) changing the cartridge on their insulin pen			
Understanding why I need to rotate injection sites to prevent lipohypertrophy			
Documenting my child's insulin amounts into the diabetes log book provided by the diabetes team			
Disposing of needles in an approved sharps container
