Hypoglycaemia in the Neonate

- **Likely to tolerate feeds?**
  - Yes
  - No

- **Breastfeed within 1 hour**
  - Yes
  - No

- **Measure blood glucose level at 60-120 minutes of age**
  - Glucose ≥ 2.6mM?
  - Glucose 1.2 - 2.5mM?
  - Glucose < 1.2mM?

- **Measure glucose 3 hourly before feeds**
  - Glucose ≥ 2.6mM?
  - Glucose 1.2 - 2.5mM?
  - Glucose < 1.2mM?

- **EBM or BMS 90/mL/kg/day = 12mL/kg**
  - Admit to NICU

- **Recheck blood glucose**
  - 30 minutes after giving dextrose gel

- **Consider giving a dose of 0.5mL/kg oral 40% dextrose gel** while arranging admission

- **Admit to NICU** if < 2.6mM
